FURNITURE DEALERS MEET

What Actually Happened to Joe Reed.

Joe is just one of the everyday common people, with a sweet wife and a dear little haby girl. He is no different from thousands of others, except he has learned how to spend. Having learned the lesson of wise spending enabled him to accumulate \$1500,00 in our savings department. Last week he had an opportunity to purchase a property for \$4800.00, which was \$700.00 below its market value, but needed \$300.00 to complete the deal. We supplied the balance of the money, because from Joe's excellent record in saving we

felt he was entitled to credit. Result. The money saved plus the money we supplied made Joe \$70.00. What we did for Joe we will do for you, if you will open an account at "The Big

At 75, This Man is Feeling Fin Since He Took the Plant Juice Medicine

LIKE HIS REAL SELF NOV

"I noticed that a great many o the testimonials about Plant Juic were given by people of about m age (75 years) and I decided to tr it and will say that it surely brough me wonderful results," said Mr. Peter O'Brien, of No. 10 Pennsylvania-av

MR. PETER O'BRIEN Newark, N. J., while talking with the Plant Juice Man recently. "I've taken a lot of medicines but not a one of them brought me one-tenth the benefit I have derived from Plant

"For several years I had suffered from indigestion and finally my stomach got into a terrible condition. My food would sour and ferment and form gas and I bloated badly and always had a heavy feeling in my stomach. My liver was mactive and I was bilious and had dizzy spells and my kidneys were disordered so that I had to get up often at night. My bowels were irregular also, and I had rhermatic pains all over my body which would seem to shoot from one spot to mother.

"All these conditions are changed since I have taken Plant Juice 50 that I now have a good appetite, enjoy my meals and can eat most anything without gas, bloating or any suffering afterward and I do not have the naureated feeling. My bowels are more regular, liver and hidneys work the way they should and I do not suffer from biliousness or dizzy spelis and do not have to get up so often at night. And those theumance pains have just about all left mc. In short, I am beginning to feel like my

real self once more—sleep better, nerves are quieted and I am in proved in every way and I give Plant Juice the credit for it all."

Plant Juice is sold in Lima at the Hunter drug stores, 49 Public Square and Main and Wayne-its and at the Argonne drug store, opp. Post Office,

BUILDING BOOM IN SIGHT

DLANS for what probably will be the biggest building program in the history of Lime already are taking form. Not only will all records for residence construction undoubtedly be surpassed, but erection of business and manufacturing structures will measure up to the top mark if the old record is not shattered.

All this augurs well for the future of Lima. The Lima News for the last five years has been preaching the gospel of real estate buying, preferably homes. Many have profited from this advice; others have sat by and watched others reap a golden harvest by investing in a home or other good type of property.

While many probably have been successful in investments in the last five years, it is certain that no other investment that has all the elements of safety has made money for owners like real estate in this city. The safest place in the world for money, real estate in Lima will be a live issue for many years to come. It is not too late to get in on the "ground floor" in the matter of realty in a prosperous, growing city, and Lama is that and will continue

If you do not own a home, now is the time to begin looking for one. Whole blocks of good houses will be built this spring and summer. Contractors already have started in some sections. You will have a big offering from which to select your place and the price range will be equally wide. You will never be sorry you bought a home in Lima.

0 0 0 0 0 WHEN YOUR BRAIN WORKS BEST

MONG business men and engineers there's an increasing ten-🔼 dency to work at night. Not many years ago it was the custom-except among lawyers-to "leave business behind at the office" and forget it as much as possible during the evening.

But now it's a common sight to see men in all sorts of industries and professions packing letters and other documents and blueprints into leather portfolios and Boston bags when they leave the office for home.

In other words, the notion is spreading, that the brain functions better at night. This is an ancient belief among writers. The later, the better. Many prefer the hours after midnight.

Does the brain really function better after the sun goes down and darkness blankets the earth? This interesting answer suggests itself:

Thought may be a definite force generated in the brain and broadcast into space like radio concerts. In support of this theory, people who are highly organized nervously become uncomfortable in large crowds, as if they are delicate receivers of broadcast thought.

Another illustration rises from memory. Examination day in the high school. Several hundred students scowling and cudgeling their brains intently. The teacher in charge of the room, watching for cheats, develops severe headache after an this series of aithetes will remember (1) saving you considerable exhour or so, and has to be relieved. She appears to be nervously Cittate of soda is another, but in pense, (2) projecting you from the shell-shocked by the thousands of thoughts durting about the exact name for it. All this is speculation, of course. But, after all, speculation is evidence of the harmlessness of the the closest we have so far been able to get the real nature of the medicine, great mystery, homan thought. We know that we think, but we know not how.

GOVERNMENTS come and go, civilizations use and decline, great individuals die and are forgotten. Nothing survives except religion—the belief in God and a Hereafter.

The churches have "off periods" in attendance as the religious force temporarily burns lew in the public. But architects announce that 200 million dollars will be spent this year in America on new church buildings. That's good news, mightily so, even the it's only a fraction of what will be spent in buildings for an all-around cough and - aw, amusement,

Says Indigestion Results from an Excess of Hydrochloric Acid

Undigested food delayed in the Stomach decays, or tather ferments, the same as food left in the open air, says a noted anthority. He also tells us that Indigestion is caused by Hyperacidity meaning there is an excess of hydrochlone acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acrid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest; we belch up gas, we eructate sour

water-brash or nausea. He tells us to lay aside all digestive acids and insteal get from any pharmacy four ounces of Jad Sales and take a tablespoonful in a glass enough to moisten the scalp and rub of water before breakfast and drink it while it is effervescing, and furthermore, to continue this for a week. While relief often follows the first dose, it is important to help neutralize the acidity, remove the gas-making mass, start the liver, stimulate

the kidneys and thus promote a free flow of nure digestive juices. Jad Salts is inexpensive, and is You will find, too, all itching and made from the acid of grapes and ligging of the scalp will stop in- lemon juice, combined with lithia

This Play Has Plot

Here is something different -- a musical comedy with a real plot.
"Oh Peachie," the product production playing at the New Orpheum this week has more than good looking girls, exceptional music and attractive cotumes and scenery. It is an interesting story that gives plenty of chance for comedy situations.

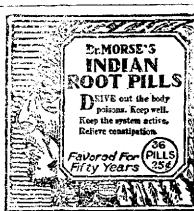

It concerns the wagering between two friends that one of them can withstand the wiles of women for 48 Lours. As soon as the bet is made, the hero is placed in charge of a girls' school and surrounded by many attractive flappers. Then KISSING SCHOOL GIRL the trouble and fun commences.

PAID UP INSURANCE PROPOSED AS BONUS

WASHINGTON-Merits of soldier bonus legislation and the form in which the bonus should be paid were discussed at a public hearing today before the house ways and means committee.

Considerable emphasis was given by speakers before the committee yesterday to paid up insurance policies as a means of adjusted compensation. American Legion officials expressed a willingness to accept whatever method might be adopted by congress, and John Thomas Taylor, vice chair-man of the national legislative committee of the legion, urged, however, that action be speeded on the bill.

BEST UTILITY MATINGS We have received numerous inquiries from local customers for older chicks and we are now offering, in addition to our rek-ular line of day-old chicks, one, two and

three-week-old chicks.

Many poultry raisers find it much more convenient and profitable to purchase older chicks. Why? Because they are started by experts, are practically pass, the danger stage, and the poultryman's loss in raising them to maturity is decidedly small. If you are not well equipped to brood day-old chicks, I to 3 week-old chicks will be a profitable investment for you. We are equipped to take care of your needs.

NEW YORK-(Associated Press) -Uncertainty over the speculative outlook in respect to the bonus legsistion and the oil inquiry was again responsible for mixed investments at the opening of today's stock market. Overcrowding of the short interest in american Woolen caused an initial rise of three points by that stock, while Standard Oil of California sarted a point lower.

Buying of Western railroad shares and New Orleans. Texas and Mexico and Norfolk & Western imparted a more stable tone to the secondary dealings, some of the earlier heavy industrials rallying sharply, particuarly Baidwin. New Orleans, Texas a rew high for the year and Norfolk and Mexico advanced three to 1011/2, and Western gained 242! Interborouth Rapid Transit which was in demand vesterday again moved up 1% and American Agricultural Chemical referred also rose a point. Foreign enhanges opened lower. French francss touching a new low for all ume at 4.00 cents.

Mixed movements prevailed during the forenoon reflecting the untertain moon of speculators. Active elling of the oil shares carried here. Oil mete ted down 64 points to 2014, the year's low price. Towards noon heavy accumulation of Korfolk and Western which rose to 1172, and buying of some of the candard resues, notably American far, caused some diminution of sellng pressure Call money opened at

Speculative Seiling Has Bearish Effect on Market COUNTRY OFFERINGS SMALL

Declines in Wheat and Oats Al soe Recorded

CHICAGO—(Associated Press) Speculative selling of corn had a bearish effect on the corn market today in the early trading and on wheat as well. Commission houses became buyers of corn the on the decline and helped to check the weakness. Meanwhile country offerings of corn to arrive were next to nothing. Initial prices which ranged from a %c decline to a shade advance, May 81 to 81%, were followed by moderate setback all around.

Wheat and oats were easier in sympathy with corn. After opening at %c lower to %c advance, May and July both 1.11% to 1.11% the wheat market hardened a trifle and then underwent a general sag.

EXPLAINS TAXATION FEAR

ent unpopularity of taxation is a tradition handed down to us from our forefathers, who were forced to pay taxes to an idle aristocracy. They resented the fact that they were giving their hard-earned money to a select few who spent it for their own selfish interests. That hatred of being taxed has passed down from generation to generation said
